Partners in Palliative Care: Enhancing Ethics in Care at the End-of-Life

Partners in Palliative Care: Enhancing Ethics in Care at the End-of-Life

The Collaborative for Palliative Care ("Collaborative") is a grassroots consortium of public and private organizations that came together in 2005 for the purposes of studying the increasing need for palliative care and the methods for such care. It has grown from a small fledgling group to a membership of over 50 community-based organizations and volunteers dedicated to improving care of the seriously ill through education, research and advocacy. The Collaborative bridges policy, research and practice in its initiatives and vision for the future.

Partners in Palliative Care examines specific areas of concern that the Collaborative has addressed in its education programs and advocacy, as well as the collaborative processes that have been so successful in building community assets. Areas of concentration have been diverse and include advance care planning, relational communication paradigms, community capacity building, the role of culture and spirituality in palliative care, the meaning of pain and suffering for seriously ill individuals, and the ethics of health care costs in palliative and end-of-life systems of care.

This book was originally published as a special issue of the *Journal of Social Work in End-of-Life and Palliative Care*.
