On Screenwriting Freddie Gaffney

Writers have been publishing screenwriting books for over half a century now, full of "inside tips" on how to make it big in Hollywood. Titles suggest screenwriting is an art, a craft, a skill, a business, a talent, a knack, or most simply, the ability to tell stories. It is, of course, all of these.

What these books seldom do is take a complete novice through the steps of learning and understanding creative writing, be it for the Hollywood feature film or for the college video production. That is what *On Screenwriting* sets out to do.

This volume is a practical manual that engages with the theory of the constructional process. Freddie Gaffney-lecturer and screenwriter-proffers a set of tools that makes the process more effective and the finished article more successfully executed.
