The African Leopard: Ecology and Behavior of a Solitary Felid Theodore Bailey

First published in 1993, with a new and updated preface, this book is based on two years of intensive field study in Kruger National Park in South Africa. Ted Bailey examines leopard population characteristics, activity and habitat use patterns, movements, feeding ecology, and social organization, and provides new information on leopard mortality, scavenging, and relationships to other large predators and to humans. Illustrated with photographs, maps, graphs, charts, and tables. For professional wildlife biologists, students, and others concerned with the natural history of large carnivores.
