Differentiated Curriculum Kit for Grade 2 - Changes (Differentiated Curriculum Kits) Angie Harrelson, Brenda McGee

Changes are constantly occurring in life. The increase of technology and the needs of mankind continuously force change. The *Changes* curriculum asks students three main questions: Can people control changes? Can using past information help you predict change? and Are changes positive or negative? The books in Prufrock's new Differentiated Curriculum Kits employ a differentiated, integrated curriculum based on broad themes. This all-in-one curriculum helps teachers save planning time, ensure compliance with national standards, and most importantly, pique their students' natural excitement and interest in discovery. By participating in the wide variety of activities in the Differentiated Curriculum Kit for Grade 2, students will discover the changes around them and gain a lifelong desire to learn. In *Changes Book 1: Rights, Resources, and the Weather*, students will investigate how the weather can affect and change many events, as well as change the shape of our planet. In *Changes Book 2: Progress, Reactions, and History*, students will investigate the universal concept of change. Students also will learn about chemical changes by examining the effects of salt on buoyancy, water on pasta, and heat on popcorn kernels. In *Changes Book 3: Communication, Honesty, and Inventions*, students will investigate the different ways to communicate, such as with the Braille system. Students also will come to understand language barriers and how to overcome these barriers. Each book contains detailed lesson plans, reproducible activity sheets, and assessment tools.
