Political Philosophy and Cultural Renewal: Collected Essays Francis Graham Wilson

Francis Graham Wilson was a central figure in the revival of interest in political philosophy and American political thought in the mid-twentieth century. While he is best known as a Catholic writer and conservative theorist, his most significant contribution is his original interpretation of the development of American politics. Central to his thought was a process of self-interpretation by the citizenry, a quest for ultimate meaning turning to a divine, transcendent, basis of history and shared experience. Although Wilson's writings were extensive and influential, they have not been readily available for decades. *Political Philosophy and Cultural Renewal* brings together a coherent and representative selection of his work, highlighting his concern for the common good and his belief in personal and societal restraint as an alternative to political partisanship and superficiality.

Wilson's affirmation of a republican inheritance encourages contemporary students of politics to revisit the Founders' views of diffused political authority. His remarkable contribution to American political philosophy is a full-fledged theory of cultural renewal that has lost none of its relevance for contemporary political and social issues. This volume will be of interest to historians, political scientists, and American studies specialists.
