Bookman's Price Index

Bookman's Price Index

Established in 1964, Bookman's Price Index is an index to rare and antiquarian books offered for sale in the catalogs of 100-200 book dealers in the U.S., Canada, and the British Isles. The number of titles listed in each volume is approximately 15,000; in the course of a year some 50-60,000 books are described.

Volumes do not supersede previous volumes. Each volume covers catalogs from the previous 4 to 6 months.

Entries Include: Title and author, edition, year published, physical description (size, binding, illustrations); detailed description of the book's condition including flaws, amount of wear, comment on scarcity; price as listed in catalog; catalog source and number.

Included are three appendixes:

Association Copies: Listing books by significant people who have owned them

Fine Bindings: Listing books that have had special bindings applied, arranged by the name of the binder

Fore-Edge Paintings: Listing books that have had scenes painted on the edge of the book, listed by the name of the artist
