FREEDOM! It's what we want most. It's what we fight for the most. It's what we are willing to die for. It's what we are willing to sacrifice everything we have for. Freedom is the primary principle the Founding Fathers sought to protect through the establishment of the U.S. Constitution 225 years ago. Now a little more than 2 centuries later our freedoms are diminishing. They are being taken and cast away by those who seek only for power. In other words OUR FREEDOMS ARE WOUNDED. Their integrity and make-up are oozing out like the life giving blood of a wounded soldier on the battlefield. Can these wounds be healed? Can we regain the full integrity of our freedoms? Like a wounded soldier, America needs a doctor who can prescribe the proper treatment and medicine that will heal our freedoms. That doctor is Harry Atwood. He dedicated his life and then literally gave it for the U.S. Constitution. With clarity, testimony, and understanding, Harry Atwood teaches the fundamental principles that the Founding Fathers fought for, died for, and established as the foundation of our Constitution. He teaches how we can arm ourselves in order to effectively fight those powers that seek to take our liberties and how to heal our wounded freedoms. His five works included in this single volume are his legacy and gift to the world. Included in this single volume are the five complete works of Harry Atwood. • Back to the Republic • Safeguarding American Ideals • Keep God in American History • Orderly Progress or Chaos: Which? • The Constitution Explained Bonus Material: • Men Who Wrote the Constitution • The Constitution of the United States
