St. Louis in Watercolor: The Architecture of a City Marilynne Bradley
In St. Louis in Watercolor, renowned artist Marilynne Bradley presents rich, breathtaking scenes of architecturally significant places, past and present. Accompanied by concise and intriguing histories, Bradley's renderings illuminate buildings like Brookings Hall, City Hall, and the Old Post Office--all designed after world-famous structures. The book also depicts originals that define St. Louis, including the Gateway Arch and Forest Park's Jewel Box. More than just current sites are featured. Lost treasures (the Buder and Title Guaranty buildings) as well as failed attractions (Spanish Pavilion and Santa Maria) appear with background stories. Bradley captures the essence of these and other places, as the Foreword, by preservation historian Esley Hamilton, and Introduction, by local historian Johnny Rabbitt, set them in context. A rare combination of gorgeous illustration and fascinating history, St. Louis in Watercolor is a must-have for art and architecture enthusiasts alike.
