## **Minecraft Gate: The Ultimate Guide to Minecraft Fence Gate** Joseph Joyner

The Minecraft fence gate is a block that, like the name suggest, serves the purpose of allowing players or entities to pass through a fence, by means of a gate mechanic which can be closed and opened. It is a fairly simple block, yet useful for both aesthetic and practical use. A simple example of usage would be to create a small area that is fenced off, placing animals inside and allowing passage in and out of the area by means of a fence gate.
