Medical Image Computing and Computer-Assisted Intervention -- MICCAI 2010: 13th International Conference, Beijing, China, September 20-24, 2010, Proceedings Part I (Lecture Notes in Computer Science)

The 13th International Conference on Medical Image Computing and Computer-Assisted Intervention, MICCAI 2010, was held in Beijing, China from 20-24 September, 2010. The venue was the China National Convention Center (CNCC), China's largest and newest conference center with excellent facilities and a prime location in the heart of the Olympic Green, adjacent to characteristic constructions like the Bird's Nest (National Stadium) and the Water Cube (National Aquatics Center). MICCAI is the foremost international scientific event in the field of medical image computing and computer-assisted interventions. The annual conference has a high scientific standard by virtue of the threshold for acceptance, and accordingly MICCAI has built up a track record of attracting leading scientists, engineers and clinicians from a wider range of technical and biomedical disciplines. This year, we received 786 submissions, well in line with the previous two conferences in New York and London. Three program chairs and a program committee of 31 scientists, all with a recognized standing in the field of the conference, were responsible for the selection of the papers. The review process was set up such that each paper was considered by the three program chairs, two program committee members, and a minimum of three external reviewers. The review process was double-blind, so the reviewers did not know the identity of the authors of the submission. After a careful evaluation procedure, in which all controversial and gray area papers were discussed individually, we arrived at a total of 251 accepted papers for MICCAI 2010, of which 45 were selected for podium presentation and 206 for poster presentation. The acceptance percentage (32%) was in keeping with that of previous MICCAI conferences. All 251 papers are included in the three MICCAI 2010 LNCS volumes.

From reader reviews:

Karen Wilson:

What do you with regards to book? It is not important together with you? Or just adding material when you really need something to explain what the ones you have problem? How about your time? Or are you busy person? If you don't have spare time to try and do others business, it is make one feel bored faster. And you have time? What did you do? Everybody has many questions above. They must answer that question since just their can do which. It said that about publication. Book is familiar on every person. Yes, it is correct. Because start from on guardería until university need this particular Medical Image Computing and Computer-Assisted Intervention -- MICCAI 2010: 13th International Conference, Beijing, China, September 20-24, 2010, Proceedings Part I (Lecture Notes in Computer Science) to read.

Kathy Donnelly:

Reading can called brain hangout, why? Because when you are reading a book mainly book entitled Medical Image Computing and Computer-Assisted Intervention -- MICCAI 2010: 13th International Conference, Beijing, China, September 20-24, 2010, Proceedings Part I (Lecture Notes in Computer Science) the mind will drift away trough every dimension, wandering in every single aspect that maybe unidentified for but surely might be your mind friends. Imaging each and every word written in a publication then become one web form conclusion and explanation which maybe you never get previous to. The Medical Image Computing and Computer-Assisted Intervention -- MICCAI 2010: 13th International Conference, Beijing, China, September 20-24, 2010, Proceedings Part I (Lecture Notes in Computer Science) giving you yet another experience more than blown away your thoughts but also giving you useful data for your better life in this era. So now let us explain to you the relaxing pattern the following is your body and mind will probably be pleased when you are finished examining it, like winning a game. Do you want to try this extraordinary paying spare time activity?

Lois Bottoms:

The book untitled Medical Image Computing and Computer-Assisted Intervention -- MICCAI 2010: 13th International Conference, Beijing, China, September 20-24, 2010, Proceedings Part I (Lecture Notes in Computer Science) contain a lot of information on the item. The writer explains the girl idea with easy technique. The language is very easy to understand all the people, so do certainly not worry, you can easy to read this. The book was compiled by famous author. The author gives you in the new era of literary works. It is easy to read this book because you can read on your smart phone, or device, so you can read the book within anywhere and anytime. In a situation you wish to purchase the e-book, you can wide open their official web-site and order it. Have a nice study.

Monica Bonner:

It is possible to spend your free time to read this book this e-book. This Medical Image Computing and Computer-Assisted Intervention -- MICCAI 2010: 13th International Conference, Beijing, China, September 20-24, 2010, Proceedings Part I (Lecture Notes in Computer Science) is simple to deliver you can read it in the park your car, in the beach, train as well as soon. If you did not possess much space to bring the particular printed book, you can buy the e-book. It is make you easier to read it. You can save often the book in your smart phone. Therefore there are a lot of benefits that you will get when you buy this book.
