A Brief History of Creation P.J. van Dyk

A Brief History of Creation deals with Old Testament narratives and traditions about creation from new perspectives, in order to reconstruct the implied picture of creation assumed by traditional material, and so enhancing an understanding of biblical traditions. It brings African perspectives on creation to the fore, which may sketch a more comprehensive picture of humanity's thoughts on origins, and further discusses the religious concepts of creation within larger scientific debates about cosmology and the nature of the human world.
