For the Love of Land: Global Case Studies of Grazing in Nature's Image Jim Howell

For the Love of Land describes practical, proven methods for bringing degraded landscapes--grasslands, rangelands, savannas, and farmlands--back to life through mimicking natural migratory grazing patterns with domestic livestock. Through a combination of essays describing nuts-and-bolts management guidelines, the natural history of grazing, and inspiring stories of successful practitioners of landscape stewardship and restoration, For the Love of Land points the way to an ecologically, economically, and socially regenerative future.
