The 2001 International Workshop on Quality of future Internet Services (QofIS 2001) held in Coimbra, Portugal, organized by COST Action 263, is the second of what we expect will become a series of successful QofIS workshops. The previous workshop was held in Berlin in the year 2000. The areas of interest of QofIS cover the design, implementation and provision of Quality of Service, spanning key issues of current and emerging communication systems such as packet-level issues, flow-level issues, network-level issues, architectural issues, and applications. The emphasis of the QofIS2001 w orkshop is on horizontal (end-to-end) as well as vertical (top-down) provision of quality of services, covering all components of end systems and networks, with the aim of identifying solutions enabling feasible and coherent QoS provision. The QofIS2001 cal l for papers attracted 87 submissions from 23 Asian, Australian, European, North American, and South American countries. These were subject to thorough review work by the Programme Committee members and additional reviewers who carried out their work using a specially built conference system, WebChairing, developed in Coimbra by Flor de Utopia, that allowed full control of the submission and reviewing processes. Based on the comments and recommendations of the reviews, the final programme was defined in a Programme th Committee meeting held at the University of Karlsruhe on June 5 , 2001.

From reader reviews:

Hayden Roberts:

Now a day those who Living in the era just where everything reachable by connect with the internet and the resources inside can be true or not demand people to be aware of each details they get. How many people to be smart in having any information nowadays? Of course the solution is reading a book. Looking at a book can help individuals out of this uncertainty Information particularly this Quality of Future Internet Services: Second COST 263 International Workshop, Qofis 2001, Coimbra, Portugal, September 24-26, 2001. Proceedings (Lecture Notes in Computer Science) book because this book offers you rich facts and knowledge. Of course the information in this book hundred % guarantees there is no doubt in it you may already know.

Tami Anders:

Your reading 6th sense will not betray you, why because this Quality of Future Internet Services: Second COST 263 International Workshop, Qofis 2001, Coimbra, Portugal, September 24-26, 2001. Proceedings (Lecture Notes in Computer Science) guide written by well-known writer who really knows well how to make book that can be understand by anyone who also read the book. Written with good manner for you, dripping every ideas and composing skill only for eliminate your own hunger then you still uncertainty Quality of Future Internet Services: Second COST 263 International Workshop, Qofis 2001, Coimbra, Portugal, September 24-26, 2001. Proceedings (Lecture Notes in Computer Science) as good book not simply by the cover but also from the content. This is one guide that can break don't determine book by its protect, so do you still needing one more sixth sense to pick that!? Oh come on your reading sixth sense already told you so why you have to listening to another sixth sense.

George McDaniel:

You can spend your free time to learn this book this guide. This Quality of Future Internet Services: Second COST 263 International Workshop, Qofis 2001, Coimbra, Portugal, September 24-26, 2001. Proceedings (Lecture Notes in Computer Science) is simple bringing you can read it in the recreation area, in the beach, train as well as soon. If you did not have got much space to bring the particular printed book, you can buy the particular e-book. It is make you better to read it. You can save typically the book in your smart phone. Thus there are a lot of benefits that you will get when one buys this book.

Millie Goodman:

Is it an individual who having spare time then spend it whole day by simply watching television programs or just laying on the bed? Do you need something totally new? This Quality of Future Internet Services: Second COST 263 International Workshop, Qofis 2001, Coimbra, Portugal, September 24-26, 2001. Proceedings (Lecture Notes in Computer Science) can be the response, oh how comes? It's a book you know. You are and

so out of date, spending your time by reading in this completely new era is common not a geek activity. So what these books have than the others?
