A Unified Grand Tour of Theoretical Physics, 2nd edition

Ian D. Lawrie

A Unified Grand Tour of Theoretical Physics, 2nd edition Ian D. Lawrie

A unified account of the principles of theoretical physics, A Unified Grand Tour of Theoretical Physics, Second Edition stresses the inter-relationships between areas that are usually treated as independent. The profound unifying influence of geometrical ideas, the powerful formal similarities between statistical mechanics and quantum field theory, and the ubiquitous role of symmetries in determining the essential structure of physical theories are emphasized throughout.

This second edition conducts a grand tour of the fundamental theories that shape our modern understanding of the physical world. The book covers the central themes of space-time geometry and the general relativistic account of gravity, quantum mechanics and quantum field theory, gauge theories and the fundamental forces of nature, statistical mechanics, and the theory of phase transitions. The basic structure of each theory is explained in explicit mathematical detail with emphasis on conceptual understanding rather than on the technical details of specialized applications. The book gives straightforward accounts of the standard models of particle physics and cosmology.

From reader reviews:

Sarita Springer:

In this 21st hundred years, people become competitive in most way. By being competitive at this point, people have do something to make these individuals survives, being in the middle of often the crowded place and notice by surrounding. One thing that often many people have underestimated this for a while is reading. Yep, by reading a book your ability to survive increase then having chance to stand than other is high. For yourself who want to start reading the book, we give you this particular A Unified Grand Tour of Theoretical Physics, 2nd edition book as nice and daily reading e-book. Why, because this book is more than just a book.

Ronald Moffatt:

Don't be worry should you be afraid that this book may filled the space in your house, you can have it in e-book method, more simple and reachable. This A Unified Grand Tour of Theoretical Physics, 2nd edition can give you a lot of friends because by you looking at this one book you have matter that they don't and make you more like an interesting person. This particular book can be one of one step for you to get success. This book offer you information that might be your friend doesn't recognize, by knowing more than additional make you to be great men and women. So , why hesitate? Let's have A Unified Grand Tour of Theoretical Physics, 2nd edition.

Colleen Williams:

Reserve is one of source of understanding. We can add our information from it. Not only for students but in addition native or citizen will need book to know the upgrade information of year for you to year. As we know those guides have many advantages. Beside most of us add our knowledge, could also bring us to around the world. By the book A Unified Grand Tour of Theoretical Physics, 2nd edition we can get more advantage. Don't one to be creative people? For being creative person must want to read a book. Just choose the best book that suited with your aim. Don't be doubt to change your life with this book A Unified Grand Tour of Theoretical Physics, 2nd edition. You can more pleasing than now.

Debra McGregor:

A lot of people said that they feel bored stiff when they reading a reserve. They are directly felt it when they get a half parts of the book. You can choose the particular book A Unified Grand Tour of Theoretical Physics, 2nd edition to make your personal reading is interesting. Your current skill of reading ability is developing when you including reading. Try to choose simple book to make you enjoy to learn it and mingle the impression about book and looking at especially. It is to be first opinion for you to like to wide open a book and learn it. Beside that the e-book A Unified Grand Tour of Theoretical Physics, 2nd edition can to be your friend when you're really feel alone and confuse with what must you're doing of the time.
