## Stem Cells and Cancer Stem Cells, Volume 12: Therapeutic Applications in Disease and Injury

Volume 12 in this series explores the latest experimental and clinical uses of stem cells in the treatment of disease and of injuries and reviews methods for isolating multipotent endothelial-like cells from human adipose tissue and discusses clinical applications in cell therapy and regenerative medicine.

The book is organized in five parts: Cancer Stem Cells, Pluripotent Stem Cells, Dendritic Stem Cells, Regenerative Medicine and General Applications. The first section includes chapters on histamine in the neural and cancer stem cell niches and emerging concepts of stem cell organization in the normal lung and in lung cancer. The section on Pluripotent Stem Cells includes discussion of the differentiation of dendritic cells from human induced pluripotent stem cell and the molecular mechanisms involved in reprogramming human somatic cells to generate induced pluripotent stem cells. Additional chapters cover the differentiation of induced pluripotent stem cells into functional cardiomyocytes, characteristics of satellite cells and multipotent adult stem cells in the skeletal muscle. The section on Dendritic Stem Cells explores the critical role of notch signaling in the differentiation and function of dendrite. Other chapters cover hypertensive emergencies in children after stem cell transplantation and overcoming the radio resistance of lung cancer stem cells. The section on Regenerative Medicine reports on experiments on improved renal revascularization in pigs using stem cells and phenotypic correction of murine Hemophilia A using cell-based therapy. The concluding section, General Applications, discusses such topics as methods in mathematical modeling for stem cells, as well as molecular and functional characterization of human adipocytes.

Like its eleven predecessors in the series, this volume stands out for its comprehensive approach, its roster of some 51 expert contributors representing a dozen different countries and its up-to-date review of leading-edge technology and methods.

### **From reader reviews:**

#### **Michael Watkins:**

A lot of people always spent their particular free time to vacation or even go to the outside with them family members or their friend. Do you realize? Many a lot of people spent these people free time just watching TV, or playing video games all day long. In order to try to find a new activity that's look different you can read a new book. It is really fun in your case. If you enjoy the book that you read you can spent the entire day to reading a guide. The book Stem Cells and Cancer Stem Cells, Volume 12: Therapeutic Applications in Disease and Injury it is very good to read. There are a lot of folks that recommended this book. We were holding enjoying reading this book. Should you did not have enough space to deliver this book you can buy typically the e-book. You can m0ore very easily to read this book out of your smart phone. The price is not very costly but this book possesses high quality.

#### **Leonard Bartow:**

People live in this new morning of lifestyle always aim to and must have the time or they will get wide range of stress from both day to day life and work. So , if we ask do people have time, we will say absolutely indeed. People is human not really a robot. Then we consult again, what kind of activity have you got when the spare time coming to you actually of course your answer will probably unlimited right. Then do you try this one, reading guides. It can be your alternative with spending your spare time, the actual book you have read is actually Stem Cells and Cancer Stem Cells, Volume 12: Therapeutic Applications in Disease and Injury.

#### **Benjamin Martinez:**

Do you really one of the book lovers? If yes, do you ever feeling doubt when you find yourself in the book store? Aim to pick one book that you just dont know the inside because don't ascertain book by its deal with may doesn't work here is difficult job because you are frightened that the inside maybe not since fantastic as in the outside search likes. Maybe you answer is usually Stem Cells and Cancer Stem Cells, Volume 12: Therapeutic Applications in Disease and Injury why because the fantastic cover that make you consider with regards to the content will not disappoint you actually. The inside or content is definitely fantastic as the outside or cover. Your reading 6th sense will directly assist you to pick up this book.

#### **Gigi Brown:**

A lot of publication has printed but it is different. You can get it by web on social media. You can choose the best book for you, science, comedy, novel, or whatever through searching from it. It is referred to as of book Stem Cells and Cancer Stem Cells, Volume 12: Therapeutic Applications in Disease and Injury. You can include your knowledge by it. Without leaving the printed book, it might add your knowledge and make a person happier to read. It is most essential that, you must aware about guide. It can bring you from one location to other place.
