The Red-cockaded Woodpecker: Surviving in a Fire-Maintained Ecosystem (Corrie Herring Hooks)

Richard Conner, D. Craig Rudolph, Jeffrey R. Walters

Though small among its woodpecker relatives, the Red-cockaded Woodpecker poses a huge dilemma for its human neighbors. Uniquely adapted to live in the old-growth pine forests of the southeastern United States, the Red-cockaded Woodpecker has nearly disappeared as the forests have been cleared for agricultural, commercial, and residential uses over the last two centuries. Today, it waits at a crossroads. Scientific management practices could restore the woodpecker's habitat and population, but the imperative to convert old-growth forests to other uses remains.

In this book, three of the leading experts on the Red-cockaded Woodpecker offer a comprehensive overview of all that is currently known about its biology and natural history and about the ecology of the fire-maintained forests it requires for survival. As the most visible endangered species in the Southeast, and the one whose conservation impacts the largest land area, the Red-cockaded Woodpecker holds a compelling interest not only for ornithologists, but also for wildlife managers, foresters, developers, environmentalists, and government officials. For all of these groups, this book will be the essential resource for learning more about the Red-cockaded Woodpecker and ensuring its survival.

From reader reviews:

Bernard Martin:

Why? Because this The Red-cockaded Woodpecker: Surviving in a Fire-Maintained Ecosystem (Corrie Herring Hooks) is an unordinary book that the inside of the book waiting for you to snap the item but latter it will distress you with the secret that inside. Reading this book adjacent to it was fantastic author who write the book in such wonderful way makes the content within easier to understand, entertaining way but still convey the meaning thoroughly. So , it is good for you because of not hesitating having this anymore or you going to regret it. This excellent book will give you a lot of advantages than the other book have such as help improving your talent and your critical thinking approach. So , still want to hold off having that book? If I had been you I will go to the book store hurriedly.

Cameron Trammell:

Do you one of the book lovers? If so, do you ever feeling doubt if you are in the book store? Attempt to pick one book that you just dont know the inside because don't assess book by its protect may doesn't work the following is difficult job because you are scared that the inside maybe not as fantastic as in the outside seem likes. Maybe you answer may be The Red-cockaded Woodpecker: Surviving in a Fire-Maintained Ecosystem (Corrie Herring Hooks) why because the excellent cover that make you consider concerning the content will not disappoint an individual. The inside or content is fantastic as the outside or even cover. Your reading 6th sense will directly make suggestions to pick up this book.

Luz Davis:

Reading a book to get new life style in this 12 months; every people loves to go through a book. When you study a book you can get a lots of benefit. When you read ebooks, you can improve your knowledge, since book has a lot of information onto it. The information that you will get depend on what forms of book that you have read. If you need to get information about your examine, you can read education books, but if you want to entertain yourself look for a fiction books, this sort of us novel, comics, along with soon. The The Red-cockaded Woodpecker: Surviving in a Fire-Maintained Ecosystem (Corrie Herring Hooks) will give you a new experience in examining a book.

Marian Storie:

As a university student exactly feel bored for you to reading. If their teacher asked them to go to the library or make summary for some e-book, they are complained. Just little students that has reading's internal or real their hobby. They just do what the professor want, like asked to go to the library. They go to at this time there but nothing reading seriously. Any students feel that reading through is not important, boring and also can't see colorful pictures on there. Yeah, it is being complicated. Book is very important to suit your needs. As we know that on this age, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore , this The Red-cockaded Woodpecker: Surviving in a Fire-Maintained

Ecosystem (Corrie Herring Hooks) can make you really feel more interested to read.
