## How to Regulate Cannabis: A Practical Guide

This is a guide to regulating legal markets for the non-medical use of cannabis. It is for policy makers, drug policy reform advocates and affected communities all of the world, who are witnessing the question change from, 'Should we maintain cannabis prohibition' to 'How will legal regulation work in practice?' Just a few years ago, this book would have been largely theoretical. Now, however, the cannabis regulation debate has moved decisively into the political mainstream, and multiple cities, states and countries are considering, developing or implementing a range of regulated market models for the non-medical use of cannabis. So this book draws on evidence not only from decades of experience regulation alcohol, tobacco and medicines, but also from Spain's non-profit 'cannabis social clubs', commercial cannabis enterprises in the US and the Netherlands, and Uruguay's government controlled system of cannabis regulation. This book will help guide all those interested in cannabis policy thought the key practical challenges to developing and implementing an effective regulation approach aimed at achieving the sager, healthier world we all wish to see.
