The Organic Manual: Natural Gardening for the 21st Century Howard Garrett

J. Howard Garrett's quest to convert the world to organics began in 1985 with the birth of his daughter. The idea was quite simple: healthy soils produce healthy animals and humans. Now millions have discovered that organics work, and that toxic chemicals simply aren't needed. *The Organic Manual* tells you how organics work and outlines a complete organic program from what products to use, when and how to use them.
