From Mexico to Patagonia, Latin America is bursting with creativity. As economies in this region have prospered over the last few years, the demand for work by local creative talent has grown with them. In this context, an aspiring generation of Latin American designers and artists has been evolving and refining its own visual language. latino-grafico presents a colorful selection of graphic design, illustration, and typography that examines the fresh look of today's Latin American design. Whether critical or glorifying, all of the work collected in this book reflects truly mixed societies. From African folk art to Christian symbolism and imported North American lifestyle, latino-grafico examines the diverse influences that shape this often chaotic design culture and make it one of the most dynamic in the world today. The included DVD with moving images and a foreword by longtime MTV creative director and native Chilean Christian Jofre make it a comprehensive compendium of this region's design.
