Securing Cyberspace: A New Domain for National Security

Securing Cyberspace: A New Domain for National Security

The Aspen Policy Books present innovative thinking on America's most pressing national security challenges. *Securing Cyberspace: A New Domain for National Security* is a collection of papers commissioned for the 2011 Aspen Strategy Group workshop, a bipartisan meeting of top national security experts. The papers examine the complexities of the emerging cyber threat, as well as the possibilities—and inherent challenges—of crafting effective domestic and international cyber policy. Authors explore topics such as the economic impact of cybercrime, cyber as a new dimension of warfare, the revolutionary potential of Internet freedom, and the future realities the United States will face in the new age of heightened Internet connectivity.
